Subject:	RE: i-wireless Docket No. 2011-107-C

Dear Jocelyn and Joseph,
Would you let us know if the request for the suspension of prefiling deadlines is granted? ORS would otherwise have testimony due on Thursday; however, since we are working with the applicant to resolve issues, we are not intending to file testimony this week. We will consult with the applicant and forward additional information on this matter once we have gotten further in the review process.
Thank you for your time and consideration,
Lessie

Subject: i-wireless Docket No. 2011-107-C

On behalf of the applicant i-wireless, I would request a suspension of prefiling deadlines. The Applicant is working with the ORS to resolve the issues in this docket and the suspension would give the parties time to do so prior to the deadline for prefiling ORS testimony. The ORS does not object to our request. I would anticipate notifying the Commission of the parties' suggested deadlines the first of next week. Please reply with questions.
